

Thanks for all the comments on the twenty two sites put forward by landowners and developers. In very broad terms, people to the west of the village favour sites to the east and people in the east favour sites to the west!

We are in process of visiting and assessing each of the sites, so do not be alarmed if you see a group of us peering over hedges and through gates. Contrary to some rumours, no decisions have been made on preferred sites (or parts of sites).

Preferred sites will be announced, and consulted on, later this year.

Bob Sellwood
Chairman of the Neighbourhood Plan Committee
